Tip#6

How to use flashlight on your phone

The flash on most smartphones isn't just there to improve the lighting on your photos. It can also serve as a handy flashlight. It's one of the most valuable accessories on your phone, with applications in many different situations.

It is smart and efficient too!

Apple Phones

- 1** Swipe up from the bottom edge of the screen to open Control Centre on your iPhone.
- 2** Tap the Flashlight button Flashlight icon.
- 3** To turn off the flashlight, tap the Flashlight button Flashlight icon again.

Android Phones

- 1** Pull down the notification area by sliding your finger down from the top of the screen.
- 2** Slide your finger down from the top of the screen again.
- 3** Find the Flashlight toggle and tap on it. That's it!
